EDUCATION

Syracuse University

May 2023

Syracuse, NY

Master of Science in Computer Science

- GPA: 3.64 / 4.0

Thesis: E2E Decision-Focused Learning Using Learned Solvers

Graduate Chess Club President

American University of Beirut

Dec 2020

Bachelor of Science in Computer Science, Minor in Mathematics

Beirut, Lebanon

PUBLICATIONS & PREPRINTS

Farhat, Yehya,

"On the Robustness of Decision-Focused Learning" &

(Under Review) (2023). Artificial intelligence for Operations Research Workshop,

AAAI Conference on Artificial Intelligence (AAAI)

RESEARCH EXPERIENCE

Research Intern

September 2023 - Current

Syracuse University

Advisor: Prof. Venkata Gandikota

- Studying the expressiveness of piecewise linear functions attained by deep neural networks through the lens of linear regions. Our current work involves analyzing the number of regions attained by the learned functions, with a focus on the impact of various loss functions, optimization algorithms, and training cycles.
- Investigating efficient methods for counting the number of linear regions in deep neural networks

Research Assistant (Master's Thesis)

August 2022 - May 2023

Syracuse University

Advisor: Prof. Ferdinando Fioretto

- Conducted a survey of End-to-End constrained optimization learning and researched an amortized method for the
 Decision-Focused Learning paradigm. Our framework involves developing a surrogate machine learning model for a
 continuous relaxation of the discrete optimization problem and substituting the learned model with the optimization
 solver within the pipeline.
- "End-to-End Decision-Focused Learning Using Learned Solvers"

 (2023). Theses ALL. 714. https://surface.syr.edu/thesis/714

WORK EXPERIENCE

IT Consultant

October 2021 - May 2023

Syracuse, NY

Syracuse University College of Law

- Setup and configured proxy servers for 30+ RoomWizard devices used across the law school. New proxy server ensured smooth and uninterrupted functionality
- Imaged all new devices and connected them to university servers. Proposed and wrote automated test scripts for law school website. Updated and documented imaging policies for server migrations

Data Scientist

June 2022 – August 2022 Milpitas, CA

Qnovo

interfece to

- Operated as a full-stack engineer to design and build a battery testing platform and a corresponding user interface to query the database, reduced time spent on ad-hoc reporting from 2-3 days to 10 minutes
- Cleaned and performed exploratory data analysis on 5M + rows of time-series data. Analysis was used to confirm the
 existence of a sensitivity problem in battery capacity estimates

Software Engineer

April 2021 - July 2021

Precast FZCO

Dubai, UAE

- Devised a cloud-based microarchitecture and employed Microsoft Azure to establish a correspondence between CMMS software and the client's IoT software, thereby streamlining task creation between software systems and reducing task creation time to zero
- Designed and implemented an integration module to connect multiple ERP, IoT, and CMMS software systems. The
 module included an interface allowing clients to specify what information to streamline between software systems

TEACHING EXPERIENCE

Introduction to Object-Oriented Design

Spring 2023

Teaching Assistant

Syracuse, NY

CSE 283 | Syracuse University

Undergraduate course: Fundamental software design concepts of functional decomposition and object-oriented design.
 Taught by Prof. Farzana Rahman

Computer Organization & Programming Systems

Spring 2023

Teaching Assistant

Syracuse, NY

CIS 341 | Syracuse University

Undergraduate course: Essentials of computer organization. digital logic, microprogramming, processors, memories, input-output devices, instruction sets. Taught by Prof. Farzana Rahman

Assured Programming and Formal Methods

Fall 2022

Teaching Assistant

Syracuse, NY

CIS 623 | Syracuse University

 Graduate-level core course: Reasoning about programs through the specification, design, and realization of provably correct programs. Taught by Prof. Andrew Lee

Advanced Computer Architecture

Spring 2022

Teaching Assistant

CIS 655/CSE 661 | Syracuse University

Syracuse, NY

Graduate-level core course: Memory systems, pipelining, simultaneous multithreading, run-time optimization, array processing, parallel processing, multiprocessing. Taught by Prof. Ehat Ercanli

PROJECTS

Optimal Stopping Problem with unknown variable

December 2021

Analyzed one form of the optimal stopping problem known as the secretary problem which has a closed form solution.
 The equation requires the number of candidates to be known beforehand. Collaborated with a team member to attempt to find an efficient solution to the same problem but without access the number of candidates; Project Link .

University Petition System

December 2020

- Collaborated with three team members to develop a petition website for the American University of Beirut. This platform
 enables students to submit their petitions along with their transcripts, which are automatically parsed. The chairperson is
 notified if the students meet the petition requirements.
- This project enabled us to significantly streamline the process, saving the chairperson countless hours previously spent organizing and reviewing transcripts to determine if the requirements have been met;
- Technology stack: JavaScript | Node.js | React | MongoDB Project Link ()

Power Monitor July 2020

- Cofounded & developed power monitor, pitched to Lebanon's public government energy sector. Enable the sector to transition into digital bills and cut down on the required transportation. Saving the government thousands of dollars each month
- Allows users to track daily/monthly usage, electricity bill, and carbon footprint using the phone application; Product Website

Image-Manipulation tool (IMP)

December 2019

 Collaborated with a team to create an application where users can add any image for manipulation. changing image color, sharpening, cropping, zooming, and applying other Pixel manipulation algorithms; Technology stack: Processing | JavaScript Project Link ()

OUTREACH & EXTRACURRICULAR

President and Co-Founder

Syracuse University Graduate Chess Club

February 2022 – October 2022 Syracuse, NY

 Co-founded the Graduate Chess Club at Syracuse University and served as the Acting President, orchestrating the club's growth with over 150+ participants during my tenure. Successfully merged the meetings of the graduate and undergraduate chess clubs, fostering a cohesive and inclusive chess community within Syracuse University.

Math and Physics Tutor Volunteer MMKN

January 2018 – July 2019 Beirut, Lebanon

Served as a part-time Physics and Mathematics teacher for students in grades 9 and 10. Specifically, I conducted
afternoon classes catering to refugees and members of minority communities in Lebanon.

Science Blogger September 2023

– What Are the Machines Learning?

Farhat, Y. (2023, September 18). What Are the Machines Learning? YF's Science Journal. https://yehya-farhat.github.io/blog/2023/MLmodels/>

SOFTWARE

- Python	– Julia	MongoDB	Numpy
- C++	Visual Studio	 Google Firbase 	Keras
- C	XCode	 Microsoft Azure 	Flask
- SQL	Android Studio	Selenium	React
– R	Heroku	REST API	Flutter
JavaScript	- CUDA	GraphQL	
Dart	HTCondor	Pytorch	

LANGUAGES

English: Native/bilingual (TOEFL: 108/120. Date: July 05, 2023)

Arabic: NativeFrench: Basic
